First Prize Will Be \$100,000; Circuit to Be Made Within 90 Days.

SAN FRANCISCO, Feb. 1 .- Three hundred thousand dollars, and perhaps more, wil be offered in prizes to aeronauts who race around the world in any type of motor-driven air craft under the auspices of the Panama-Pacific International Exposition company. Of this sum, \$150,000 will be given direct by the exposition company and subscription arrangements on foot for setting the remainder are said to indicate an even larger sum than \$500,000. It is said to be the largest prize fund ever offered for a single sporting event.

The tace, the climax of the world's aeronautical activities, is to start early in May, 1916. Contestants will be allowed ninety days in which to make the flight of approximately 22,000 miles around the globe.

### Take Course Eastward.

Take Course Eastward.

The race starts and finishes on the grounds of the Panama-Pacific exposition and the course lies east from San Francisco. The route as now outlined crosses the Atlantic ocean, England, France, Germany, Russia, Japan and the Pacific ocean, touching the world's brilliant capitals, the Arctics, the sub-tropics of the orient, and the Siberian wastes. Specifically, the lines in America runs from San Francisco through Reno, Nev.: Cheyenne, Wyo., from there either to Kansas City, St. Louis or Chicago and on to New York.

The Atlantic ocean is conceded to be the most formidable stretch in the race it will be essayed from Bee Isle, a small point between Newfoundland and Labrador. Cape Farewell, Greenland, the next stop, barring a drop into the water, 4s atlantic has been crossed.

That none of these three distances is impossible, aero experts assert, is shown to them by a recent flight of Garros, the French aviator, who did 600 miles over the Mediterranean from Cannes, France, to Tuns, Africa.

From the Hebrides to Edinburgh, London, Paris, Berlin, Warsaw, St. Petersburg, Moscow and along the Trans-Siberian railway down into Manchuria and Korea, and across into Japan, runs the line of flight. # SANCTION TO RACE

NEW YORK, Peb. 1.—The Aero Club of America announced today that it had given its sanction to an aeroplane race around the world to be started from the Panama-Pacific Exposition grounds in San Francisco in May, 1915, and to be completed at the same place within ninety days. The first prize will be \$100,000.

The sanction was given upon the receipt of telegrams stating that the Panama-Pacific exposition and the Pacific Aero club of San Francisco were organizing such a race and that application for sanction had been malled. The club announcement says:

The New Yorker will do a little work today, probably at the central fire station, by way of "setting the kinks out" of his muscles after his long journey from New York.
Yokel is working in the conscientious manner that characterizes Mike's preparation for all his matches. In all of Yokel's history there has been only one lapse from strict observance of the training grind, and that lapse proved easily for Yokel, for Chris Jordan took the world's title away from him for a few months as the result of Mike's overconfidence. "Never again," said Mike after that match, "will I go into a match without training." And he has kept his word.

With two big intercollegiate games oming up this week, the University of Utah basketball players will have a good clipped a fifth of a second off the world's deal to think about if they expect to cure the defects apparent in the game with the B. If Bennion's men can win this game they will probably win by it the championship of Montana, as indications are now that the Bozeman quintette will again defeat the State University for the title.

# Utah Aggies Friday.

On Friday night the University of Utah will meet the Utah Aggies in Logan. This will be an important game for both schools, as the winning of the early games goes for towards keeping up the fighting spirits of a team.

The final outcome of the state college schedule is doubtful. Saturday night the B. Y. U, team won from the B. Y. C. by a much larger score than that by which the U. of U. defeated the B. Y. C., but Coach Jensen of the Logan college says his men played a much stronger game against the "U" than they did against the Provo team.

In commenting on the present outlook of the basketbal season Coach Jensen had some interesting remarks to make. He had this to say about the possibility of a final tie-up as to the championship.

final tie-up as to the championship.

I think every team in the league will lose at least one game this year. The different fives are too evenly matched for any one of them to win consistently and when the final whistle blows there is likely to be some dispute as to which team is master of the situation. The R. Y. C. has already lost to the U. of U. and to the B. Y. U., but I fully expect to beat both of these teams on the B. Y. C. floor. The B. Y. U. has a great team, but I think when they meet the Aggles in Logan they will lose, although I expect Roberts to win easily from the Aggles in Provo.

# Value of Home Floor.

I look to see Utah lose the first game with the Aggles. Bennion has some good boys, but on the A. C. floor I can't see a victory for him. It will surprise me, however, if Rennion doesn't trim the Aggles in Salt Lake.

With this kind of a tie-up the 'varsity men will have to get down and hustle or they will not even win their home games. The men know the game fairly well but they lack condition. The game with Montana will be played in the Deseret gymnasium and for that reason the varsity will have a workout on the downtown floor this afternoon.

This will be practically the last hard work they will do before the big game and those who show the best physical condition in this afternoon's practice will be used in the Montana game. At present Bennion is fearful lest McIntyre's lach of condition will keep him from some of the early games. The varsity will play a game with the B. Y. U next week.

tion of many little questions that always bob up to demand attention.

One of the important points to be decided will be the question of spring training. There is a well-defined movement for a training camp at Palisade, Colo., near Grand Junction. Hester had the Great Falls team down there last year, and the experience of the Electrics proved profitable indeed.

Dr. Harveille's Murray team has booked three exhibition games thus far One will be with the White Sox on April 1 and the two others with the Calgary team of the Western Canada league, of which "Brick" Deverenux is the manager. The "old red dog" will be assured a warm welcome when he brings his boys here. For two seasons "Brick" was a star performer on the Salt Lake club.

night's good sport.

Four pairs of the boys who will box tonight have appeared before the local fans a number of times and they have always made good. The fans, therefore, are sure of at least four bouts that should prove to be hummers, while the other two will bring out some youngsters who have never appeared before a local crowd, but who have been training for the past two weeks in anticipation of getting a chance to show their ability. They realize that if they don't make good in their first time out their chances of a return engagement are very slim, as Manager Downing gives the boys to understand that they have to make good with the crowd in order to get another chance. By this Downing does not mean that they must win, as they cannot all win, but they have to show that they are game and willing mixers, as that is what the fans demand, and if they demonstrate this fact they can always be used again. Mike Malone and Harry Shater, who will furnish the headliner, have put in some hard work training for their bout and will no doubt give the fans one of the fastest four-round houts that has been seen here at any time. They are both boys who possess real class and are willing mixers. There will be nomething more than the winning of this bout for these boys to box for, as Downing has a chance to use the winner of the bout in a twenty-sound affair in a neighboring city in the near future, and he has promised that if they put up the kind of a bout he believes they are capable of the winner will be given the match. This will give the boys something worth while to box for and a rattling bout may be expected.

The battle between Gien Gutke, examateur featherweight champion of the

win give the boys sand a rattling bout may be expected.

The battle between Glen Gutke, examateur featherweight champion of the Rocky mountain district, and "Rattling" Travis, for the featherweight supremacy of the club, also promises to be a very interesting contest. Both boys have been training hard for the contest and both are very anxious to bring home the decision. These boys are fast and clever, and as neither boy has lost a bout since he began boxing here he will be out to win from the jump.

The "Mack" McAllister-"Billy" Furnis bout also promises to arouse considerable enthuslasm, as the Ogden fans have been shouting the praises of Furnis for some time and even accused the local lightweights of being afraid to meet him. Reports from Ogden are to the effect that a party of fifty or more will come over from the Junction city to pull for Furnis, and they promise to bet some real money on his chances. Furnis is practically unknown here, but in all probability the Ogden fans will be accommodated with all bets that they care to take, as the local fans know that McAllister is trying all the time and is likely to bring home the money any time he lands a punct.
